PEOPLE PNEUMATIC COMPANY PROFILE

People Pneumatic Equipment Company Limited is specializing in manufacture and sales of the pneumatic components. There are four kinds of pneumatic component: pneumatic air preparation component, pneumatic execute components, pneumatic control component and pneumatic support components.

The pneumatic air preparation components include:

Compressed air filter, compressed air regulator, compressed air lubricator, compressed air process combination (F.R.L units), pressure gauge, auto drainer.

The pneumatic control components include:

Pneumatic Solenoid valve, foot air operated valve, hand operated valve, Mechanical valve, flow control valve, quick exhaust valve, check valve (non-return valve). Main products models: 3V1/3V100/3V200/3V300/4V100/4V200/4V300/VF/2W.

The pneumatic execute components include:

Pneumatic cylinder, air cylinder, SC/SU standard cylinder, SCD twin ends cylinder, SDA compact cylinder, CQ2 compact cylinder, MGP compact cylinder (with guide rod), MAL aluminum alloy mini cylinder, MC/MAC stainless steel mini cylinder, CM2 stainless steel mini cylinder, CJ2 stainless steel mini cylinder, CU multi-mounted position cylinder, TN twin-rods cylinder, STM slide cylinder, MHC2 pneumatic chuck, MHZ2 pneumatic gripper, sensor switch, cylinder mounting accessories.

The pneumatic support components include:

One touch fittings, push-in fittings, quick couplers, silencers, brass fittings, tube fittings, PU hoses, PE hoses, air guns, air blowers, dust blowers, mufflers.

People pneumatic component has a wide range of pneumatic products line and complete models. We keep the quality control of products as the primary factors in the pneumatic production during the manufacture and marketing. PEOPLE PNEUMATIC EQUIPMENT - To be the top business partner of industrial automation equipment companies and manufacturers.
